RESPONSE

Sir:

In response to the Official Action mailed July 2, 2001, Applicants hereby  
elect Group I. This election is made with traverse.

MPEP Section 803 states that:

"If the search and examination of an entire application can be made without  
serious burden, the examiner must examine it on the merits, even though it  
includes claims to independent or distinct inventions."

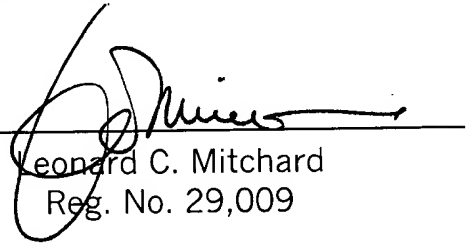

The Examiner has identified eleven (11) groups in this case. However, the  
action does not identify any classes and subclasses, as usually occurs in  
restriction requirements. As a result, it is not possible to ascertain whether the  
identified groups are classed in the same or different classes/subclasses, and  
thus whether searching of two or more Groups can be conducted "without serious

burden". If the eleven-way restriction requirement is maintained, the applicants will be forced to submit ten divisional applications to cover the other Groups, thereby giving rise to significant additional expense. As it is not possible to determine whether searching the pending claims will give rise to a "serious burden" (since the classes and subclasses are not provided), Applicants request that such information be provided on a further action in this case.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
